Introducing the **Philips Sonicare DiamondClean Smart** toothbrush

The cleaning, gum care, stain-removing, patient-coaching, habit-forming, confidence-boosting, better check-up oral care system.

Whatever their oral care goals, your patients can achieve them with **our best, most complete brushing solution ever**

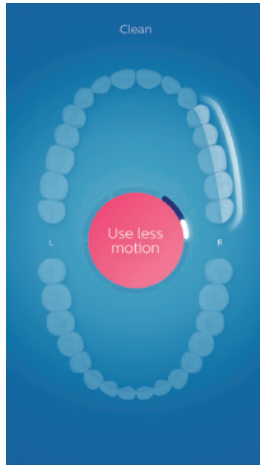

Personalised coaching for better technique

Smart sensor technology sends brushing data to the Philips Sonicare app, providing personalised coaching and feedback for better coverage, reduced scrubbing and ideal pressure. It gives your patients a clear picture of their brushing habits.

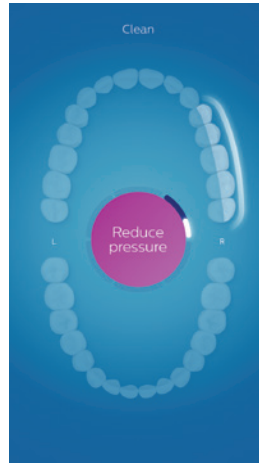

Location sensor

Shows patients where they are brushing to help avoid missed spots, giving them 100% coverage every time they brush

Scrubbing sensor

Helps guide patients to reduce scrubbing for optimised technique and an effective, gentler clean

Pressure sensor

Provides visual and vibration feedback, alerting patients when too much pressure is applied

Intuitive brushing

Smart Brush Head Recognition technology

A microchip in the brush head prompts the brush handle to automatically select the optimal brushing mode and intensity level and provide accurate replacement reminders.

Available colours:

Lunar Blue
HX9954/56

White
HX9924/06
(Excludes Brush Head Holder)
