

Start injecting with our strongest direct restorative ever\*

G-ænial® Universal Injectable

# Welcome to the future

**G-ænial®** Universal Injectable is destined to be a game-changer in restorative dentistry. With its unique characteristics it will truly transform the way you work.

World-leading technologies have enabled GC to define a new benchmark composite offering exceptional strength, unsurpassed polishability and fantastic, tooth-blending aesthetics.

But you'll be amazed at how it is **injectable** and shapeable all at the same time. It adapts perfectly to the cavity floor, but lets you build, shape and contour while you are injecting – because **G-ænial® Universal Injectable** doesn't slump!

It will also save you time and money because placement is so much faster and because you don't waste any material at all – you only use what is needed.

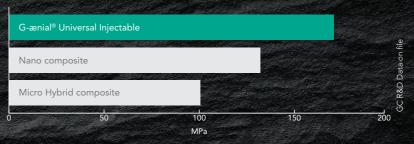

Try it for yourself and embrace the future! You'll never look back.

Exceptional strength and wear resistance

## Our strongest direct restorative ever\*

GC's world-leading filler technologies have allowed us to develop an injectable material that is significantly stronger than most conventional paste composite materials. It's a new paradigm in thinking that a composite with a more flowable consistency is actually your strongest option!

#### Flexural Strength

3 steps in 1 shape and contour as you inject

## Inject, shape and contour all at once

Because **G-ænial® Universal Injectable** doesn't slump or string, you have total control to adapt, shape and contour as you inject for fast, effortless restorations. It will adapt perfectly to the cavity floor and allows you to easily build contours, cusps and even proximal walls.

Unsurpassed polishability with beautiful aesthetics

Universal application for all cavity classes

Faster
placement
time with no
wastage

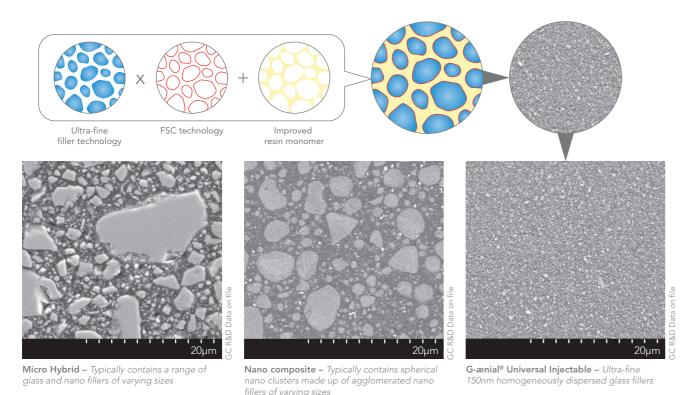

\*based on ISO 4049 testing

# **3**in 1 Technologies

## World-leading innovation and technology

Our latest full-coverage silane coating (FSC) technology makes it possible to homogeneously and densely disperse ultra-fine 150nm fillers in the improved resin monomer matrix giving unparalleled strength, durability and energyabsorbing resilience with high radiopacity - 252% Al.

## Innovative syringe and unitip design delivers with ease and no slumping

With effortless extrusion, our syringe and unitips are a joy to use - delivery is easy.

# **3**in 1 Benefits

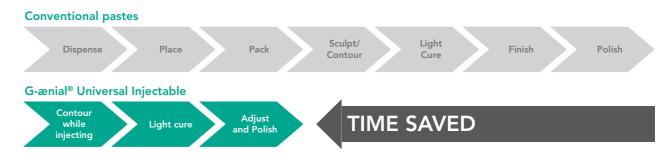

## Superior strength, wear resistance and polish retention

G-ænial® Universal Injectable's high-density structure not only provides exceptional strength, but also greater wear resistance, unmatched high polish retention and high resistance to discoloration for long-lasting aesthetics.

## Save time, save material, save stress

With far fewer steps than conventional composite, the time savings for restorations are significant. G-ænial® Universal Injectable also eliminates wastage. You only use what you need! And because G-ænial® Universal Injectable doesn't string or slump the whole process is easier and the end result is less stress in your day.

# **Case Studies**

### Class II restoration

4. Removal of the sectional matrix after building the wall

5. A class I procedure can now be followed; the dentin layer is created with the A4 shade

6. Final situation after finishing and polishing of the margins

# Full-incisal build up and cervical restorations with single shade

Full build up and VDO increase of lower incisors using a single shade and cervical lesions requiring restorations.

3. Final conservative management of different types of restorations using a single shade.

# Management of early worn dentition

Early wear evident on a 40-year old patient needing conservative management.

Old composite restorations removed and teeth micro-etched. Build up and restorations on the occlusal surface using alternate teeth technique.

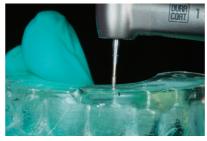

# Injection moulding technique

Holes are drilled in the EXACLEAR mould through which

Finishing the vestibular and palatal margins.

Finishing the approximal margins.

Now available in Unitip delivery

**G-Premio BOND Refill** 5mL liquid (1)

#### Packages:

#### 1 Syringe Pack

1x Syringe 1.7g (1.0 ml), 5x Dispensing Tip Needle, 5x Dispensing Tip Long Needle, 1x Light-protective Cap

#### 2 Syringe Pack

(available in shades A1, A2, A3) 2x Syringe 1.7g (1.0ml), 10x Dispensing Tip Needle, 10x Dispensing Tip Long Needle

#### **Dispensing Tip Refill**

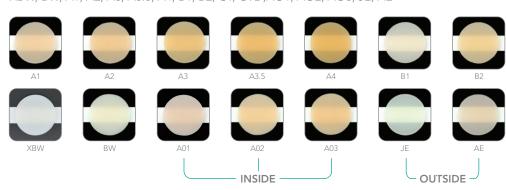

20x Dispensing Tip Long Needle 20x Dispensing Tip Regular Needle

#### Also available in unitips:

15x Unitips 0.27 g (0.16 mL) Shades: A1, A2, A3, A02, BW

#### Shades:

XBW, BW, A1, A2, A3, A3.5, A4, B1, B2, CV, CVD, AO1, AO2, AO3, JE, AE
