

grin[®]

Be you. Be natural.

100% natural

SLS free

Made in New Zealand

Developed and Tested in NZ

Grin Natural Toothpaste has been created after undertaking extensive consumer research and has been developed together with NZ scientists.

Sourced from NZ Nature:

NZ Local Propolis

Propolis offers antiseptic property

NZ local Organic Sea Salt

Regular rinsing and gargling with tepid sea salt water helps to manage oral hygiene and to soothe an irritated mouth.

NZ local Manuka Oil

Studies suggest that antiseptic activity of Manuka Oil may help in the management of good oral health.

Health Benefits:

Leaves Fresh and Squeaky Clean Teeth

Leaves teeth fresh and squeaky clean. Protect mouth and gums against ulcers and infections.

Healthy Gums

The natural ingredients included in the toothpaste lend their antiseptic properties to help keep the gums healthy .

Help to Prevent Tooth Decay

Helps to prevent tooth decay and plaque build-up, and help to maintain good oral hygiene and health

The Big toothpastes use ingredients you need a degree in chemistry to understand; some chemical ingredients such as sodium lauryl sulfate does not actually clean teeth - its sole purpose is to produce foam. In some people, it can cause skin irritation.

What makes a product good?

At Grin, it includes how we make it.

- No fluoride, sodium lauryl sulfate (SLS), preservatives, artificial flavours, colours, fragrance or harsh abrasives.
- We share every ingredient, its purpose and its source at www.grinnatural.co.nz
- No animal, vegetable or plant suffered during the making of this fabulous connection. Limitless benefits all round when you go natural.
- Sustainable practices are a priority in every aspect of our business.
- We strive to maximize recycled content and recyclability of our packaging.
