

With Soft-Core, obturation just got easier and more economical.

If you like Thermafil®, you'll love

Soft-Core®! Soft-Core's carrier is 30% thinner than Thermafil, allowing greater flexibility to navigate curved canals. A thinner core also means more gutta percha for denser fills every time. And with just one universal taper size, you can greatly reduce and simplify your carrier inventory.

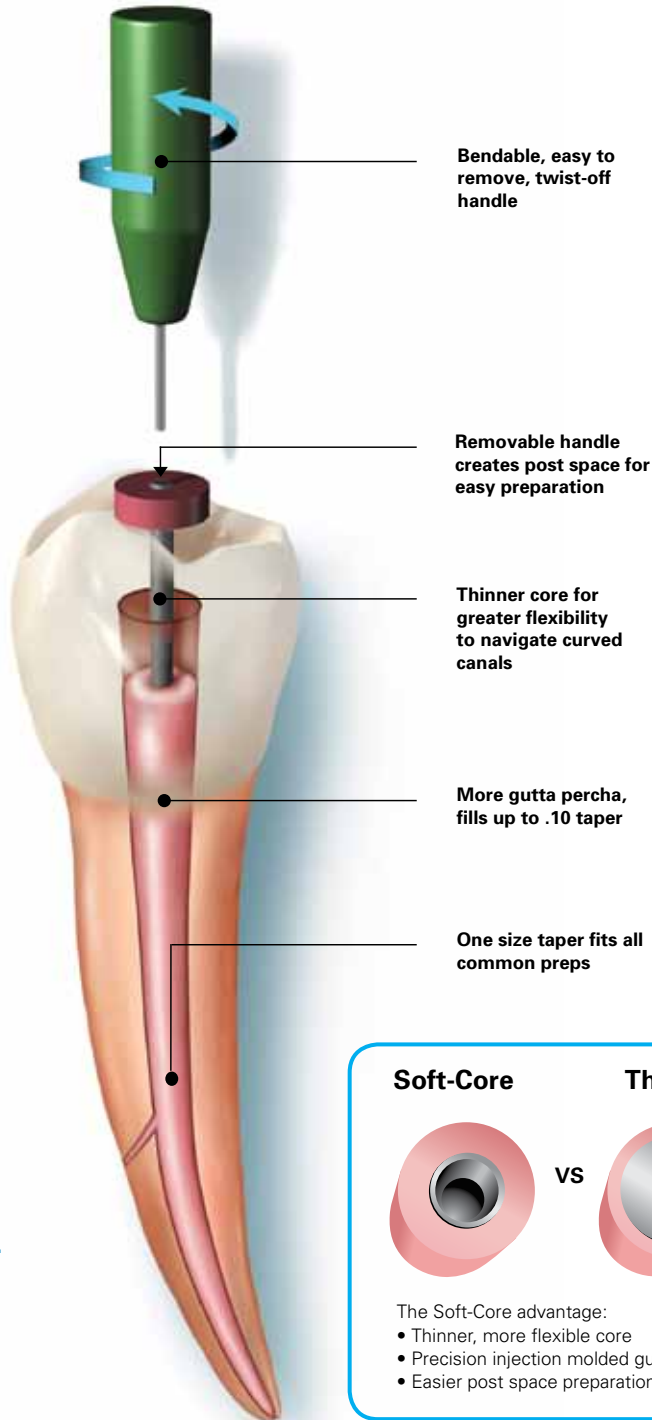

Fluid filtration leakage study: Leakage resistance*

Clinically proven to provide a better seal.

Soft-Core is made with the most advanced Alpha Phase gutta percha available, ensuring excellent flow ability, adhesive qualities and superior sealing capabilities. In fact, in a recent university study Soft-Core had 40% less microleakage than Thermafil.

Switch to Soft-Core today!

Contact your authorized SybronEndo dealer or SybronEndo at 800.346.3636 for more information and special offers.

Soft-Core	VS	Thermafil
<p>The Soft-Core advantage:</p> <ul style="list-style-type: none"> • Thinner, more flexible core • Precision injection molded gutta percha • Easier post space preparation 		

* Sealing Ability of a New Carrier-Based Obturating Material. Minerva Stomato. Testarelli, et al., May 2009. Thermafil is a registered trademark of Tulsa Dental Specialties.

Soft-Core line of products

Soft-Core Intro Kit

Kit contains 1 Soft-Core Oven, 3 packs each of #20, #25, #30, #35 Obturators (pkg of 6), 2 packs each of #20, #25, #30, #35 Size Verifiers (pkg of 6), 1 pack of #1 LA Axxess Stainless Steel Burs (pkg of 6).

Soft-Core Obturators

For use with hand files or rotary files. Endodontic Obturators are available in a 6 pack or a 36 pack.

Soft-Core Oven

The all new Soft-Core Oven provides a simple and consistent way to completely heat Soft-Core Obturators.

- Heats up to 4 Obturators at once, reducing procedure time.
- Ceramic heating element provides consistent, maintenance free heating of Obturators.
- Removable Obturator rest for easy clean-up and sterilization.
