NEODRYS®

Absorption is everything

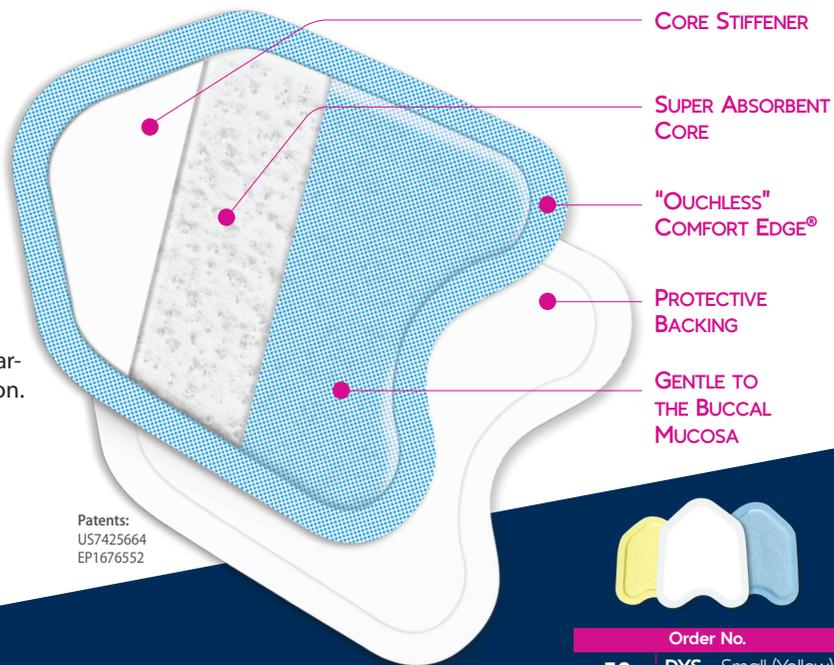

NEODRYS saliva absorbents do just that! We know how important it is to work in a dry field when doing the procedures you do all day long. Built with a super absorbent core ensures things stay nice and dry.

To serve and protect (the cheek that is)

NEODRYS protective backing and our patented design gives you great cheek retraction. You have room to do what you need to do in close quarters, plus they protect the cheek in case you have a runaway bur situation.

Reflect on your bad choices...

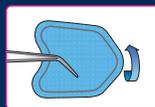

And make some improvements! With a reflective backing option, NEODRYS reflective brightens up the oral cavity and ensures you see exactly what you're working with. Out of the darkness and into the light!

"A must have product for day in - day out dentistry today."
