AirFloss Ultra

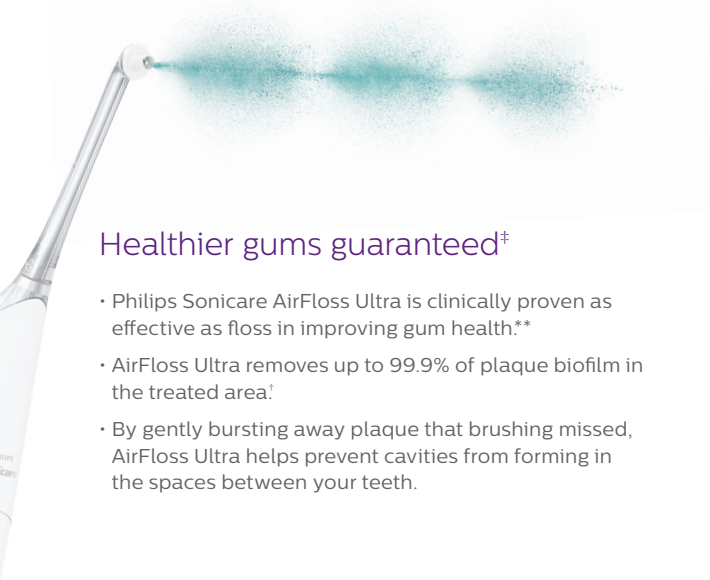

Carrie doesn't floss regularly,
but her **gums have never
been healthier**

An easy addition to a healthy routine

Sticking to a consistent flossing routine can be a struggle. Until now. Introducing the new Philips Sonicare AirFloss Ultra, a unique interdental cleaner that reaches places your toothbrush can't. If you don't floss regularly, Philips Sonicare AirFloss Ultra will provide everything you need for improved gum health.

The easy way to start a healthy habit

- Cleaning between teeth with Philips Sonicare AirFloss Ultra takes just 60 seconds, making it simple for you to add it to your daily oral care regimen.
- 95% of inconsistent flossers who tried AirFloss Ultra said it was easy to use.*
- 89% said it was easier to use than string floss.*
- 82% said it was easier to use than Waterpik.*

Healthier gums guaranteed[‡]

- Philips Sonicare AirFloss Ultra is clinically proven as effective as floss in improving gum health.**
- AirFloss Ultra removes up to 99.9% of plaque biofilm in the treated area.[†]
- By gently bursting away plaque that brushing missed, AirFloss Ultra helps prevent cavities from forming in the spaces between your teeth.

Improved technology and design

New triple-burst technology

Delivers three bursts of air and liquid micro-droplets to disrupt and remove plaque along the gumline and in hard-to-reach areas.

A new and improved high-performance nozzle

Features a softer tip for better comfort and a wider spray to cover more tooth and gum surface.

Easy operation

Interdental cleaning with Philips Sonicare AirFloss Ultra takes three simple steps:

1. Fill

Use with water or an antimicrobial mouth rinse for targeted treatment

2. Point

Hold down for continuous automatic bursts, or press and release for manual burst mode

3. Clean

Micro-droplets of air and liquid remove plaque

The easiest way to effectively clean between teeth

The new Philips Sonicare AirFloss Ultra is designed to meet the specific needs of inconsistent flossers and is proven

New high-performance nozzle

For targeted delivery of micro-droplets of air and liquid to gumline and hard-to-reach areas

Auto-burst option

Choose manual burst mode or continuous automatic burst

Easy filling

50% larger opening than previous AirFloss

Lithium-ion battery

Lasts up to 2 weeks between charges

Customizable burst settings

Choose single, double, or triple bursts
