 HENRY SCHEIN®

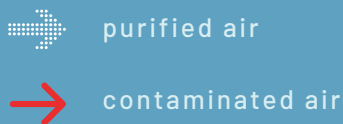

Introducing | Radic8

Create a safer environment for your patients and staff!

Discover Radic8's range of air purifier perfectly adapted to small, large and medium-sized environments (up to 105 m²). The air is first purified thanks to a combination of 3 filters that block the largest particles followed by reactor irradiation with UVC before final release via a charcoal filter.

VK401

HEXTIO

VK103

With its large air exchange capacity, the VK-401 wall mounted unit is ideal for dental surgeries, meeting rooms, training rooms & waiting rooms.

Ideal for benchtop use in dental settings. Reception desk, small consulting rooms, this unit is portable and can be placed anywhere.

Floor standing and perfectly suited to open plan spaces and large waiting areas.
