VK 103

RADIC 8

The perfect Air Purifier for large areas up to 105m².

Great choice for installing in large dental facilities including reception areas, teaching facilities, open dental treatment operatories, communal areas, etc.

The VK 103 can also be used with an optional positive air pressure attachment to create positive pressure.

VK 103 has been proven and tested to:

- ❖ Control airflow to optimise air decontamination in the breathing space
- ❖ Effectively remove noxious gases and larger particles such as dust, dander and other allergens.

The Hextio and VK Air Sanitisers may be used as an adjunct to personal protective equipment (PPE) and other infection control procedures. When using the HEXTIO and VK Air Sanitisers unit basic safety precautions should be observed, and instructions should be read to reduce the risk of fire, electric shock, or injury; the appliance should not be used by children or adults with reduced capabilities. Looking directly at an ultra-violet light may cause permanent damage to the eyes.
